

additional HYGIENE-ADVICE for artists in Ost-Passage Theater

Keep in mind the minimum distance of 1.5m also on stage or use your mouth-nose-coverings if the distance cannot be kept. Keep the safety distance of 2m to the audience. Mind while singing and speaking excessively a distance to other people as large as possible. Unfortunately we cannot allow the use of wind instruments at the moment. If possible be not more than four people on stage at the same time.

**ON
STAGE**

Keep in mind the minimum distance of 1.5m also backstage or use your mouth-nose-coverings if the distance cannot be kept. In the artists' dressing room only two people maximum are allowed to stay at the same time. Dress and do your make up on your own. Costumes and rehearsal clothing are to be taken home and washed there, please. In the whole backstage area only 8 people are allowed to stay at the same time. Avoid moving in opposite directions and only use the stairs one by one.

**BACK
STAGE**

It's part of the security plan to reduce contacts of the different groups in the house. Thus please avoid going through the audience area during an event and avoid to meet guests directly. To enter and to leave the house use exclusively the artists' entrance. For going to the toilet use exclusively the artists' bathroom, please.

To avoid the usual mess backstage we created seat islands for you. So if you are not actually going to or coming from stage or have to change, please have a seat in the designated area. For your own safety you are not allowed to stay in the house for a duration longer than six hours at maximum.

During an event usually the theatre staff takes care of cleaning, disinfection and ventilation and is happy about your support! Disinfect all possible contact spots on your own before and after each rehearsal and clean the artists' bathroom after EACH rehearsal. **IMPORTANT:** Keep always in mind to ventilate regularly, intensively and sustainably!

**CLEAN
&
FRESH**
